Back to Classroom Programme

A "Back to classroom" programme was organized at the department of Electronics and Communication Engineering with Mr. Umesh N, (2004-2008 batch alumnus of ECE Department) who is a Project Researcher in University of Tokyo, Japan presently engaged in a project of under water robotics. The programme was conducted at the seminar hall of ECE department on 13-3-2015 from 10.00 am to 12.30 pm. The programme was attended by sixth semester students and a few selected students from the 4th semester and S1S2.Mr. Umesh delivered a talk on robotics with special emphasis on under water robotics. He had also shown the images and video of the robots that his team was using for sea-floor imaging. He has also explained about the scope and opportunities in the area of robotics and also motivated the students to participate in robotic contests organized by IITs and other institutes and also shared a few links.

Second of this series was conducted on 3/12/2016, with an interesting talk by Mr. Rajeevan K.K, (1989-1993 alumnus of ECE Department) who is a General Manager, IRM CoE, Reliance Industries Group, Mumbai. The programme was attended by sixth semester students PG students. Mr. Rajeevan delivered a talk on " "De-Mystifying Cyber Security" which included basics of Information Security, need for security, traditional safeguards of infosecurity, current trends and challenges and defence Strategies.

Under the VFS, Dr.Roy Paily, Professor, Indian Institute of Technology, Guwahati conducted classes on Analogue MOS ICs for final year B.tech students. Interactive sessions were a part of everyday's class. session.
