

RJ SOFTWARES

Hello,

We are looking for a **PHP Developer** who has a passion for gaming and would like to work with our team in building next generation games & mobile apps.

Requirements are:

- Ability to understand how a website can run on multiple browsers / platforms.
- Experience with source code control and versioning (SVN/GIT).
- A project done on PHP (for freshers).

Kindly get back to us with updated resume and a couple of lines on why you want to work in the Game Development industry.

Regards,

Priyanka Basak, HR
